

Instructions- "The DNA journey & All that we share" videos

2- « The DNA journey » & "All that we share" videos

Objectives:

Become aware of how stereotypes divide people and become aware of the similarities that we all share as human beings

Instructions

1. Watch ["The DNA journey"](#) and ["All that we share"](#)
2. Answer the following questions about stereotypes, prejudices and generalization?
 1. Are we referring to certain stereotypes in our everyday life?
 2. Do we have prejudices and contribute to the process of generalization in our everyday work?
 3. Are we able to give concrete examples linked with the ELISSE internship that starts?
 4. What are the prejudices (stereotypes, prejudices, presumptions, etc.) that you will have to face during your the intercultural experience?
 5. What strengths/assets can we mobilize to overcome them?
 6. Are we open to new ideas?
 7. What questions do we have?

Variation on this activity (connecting the videos to the mask activity)

1. Watch the videos.
2. Each participant **put on its mask** (the one created in step 1) and give a voice to both its inner and outer masks answering the questions above. (Being with one's mask symbolizes our self-awareness, which should allow you to talk about these concepts / issues while being more aware of who you are and what are the thoughts that influence you.)

If you are interested in continuing the reflection, here is a link where you can find additional information:
