

Instructions to realize your Personal Timeline

After each ELISSE activity, **you record the highlights of this self-assessment in your "Personal Timeline"** ("Timeline"). Your Timeline begins at the same time as your ELISSE experience and lasts until the end. In addition to recording the highlights of each self-assessment, you also record the dates, events and activities that mark your intercultural experience. The online tool allows you to enhance your Timeline with photos, videos, achievements and comments.

Your Timeline will also allow you to prepare the assessment of your ELISSE experience at the closing activity (Tool: Awareness of interculturality in oneself). It should be kept preciousely in your portfolio (Moodle/staff).

We suggest that you use PowerPoint to make your timeline and deposit it in the drop box created for this purpose.

We also provide you with PowerPoint timeline templates. You are free to use the one you prefer.
